Strength Along the Western Front.**

By Associated Press.  
LONDON, Oct. 20.—Latest reports from the Near East indicate that Serbia is in danger of being overwhelmed by the armies of her neighbors. No less than eight Bulgarian forces have crossed into Serbian territory.

The Austro-Germans are advancing slowly but steadily, their latest claim being that a junction has been effected to the east of Macedonia. The railroad between Nish and Saloniki has been cut by the Bulgarians sweeping over the frontier in superior numbers. No news has been received of the movement of the Anglo-French army although it has been known to be in action as the arrival of French wounded at Saloniki has been reported.

Italy's declaration of war against Austria increases the hope of her allies that she will join in the Italian campaign but what form her assistance will take has not been indicated definitely.

Russia, the first of the allied powers to present an ultimatum now finds herself alone in not having issued a formal declaration of war against her former ally.

Along the eastern front activity is confined to the two tips of the long battle line. The Germans are pressing their offensive in the northern sector near Riga, while General Hindenburg claims several victories for his Russian army in Galicia.

Reports from the Entente Allies in the West indicate the Germans have been reinforced heavily and are showing a disposition to assume the offensive. Field Marshal French announces the complete repulse north of Loos of Germans who made an attack after heavy artillery preparation.

Paris reports that east of Rheims the Germans made a fierce attack on a large scale occupying several French trenches.

The illness of Premier Asquith has brought a full political activity and the crisis which many persons expected would be developed in the cabinet this week is hardly likely to occur until he appears in the House of Commons. At that time Sir Edward Carson may give a public explanation of his resignation of the attorney generalship.

British submarines now reported to have been reinforced by Russian craft continue to inflict several losses on German shipping in the Baltic.

A Copenhagen newspaper reports the eight steamships which have been prey of the submarines since Monday.

**PREMIER ASQUITH IS  
REPORTED MUCH BETTER**  
LONDON, Oct. 20.—A bulletin issued today said that Premier Asquith who was taken ill yesterday, passed a satisfactory night and his condition is improved.

The bulletin said he would be confined to his room all day.

**BULGARIANS IN HASTE TO  
GUARD ROMANIAN FRONT**  
PARIS, Oct. 20.—The Saloniki correspondent of the Havas agency in a message under Tuesday's date says:

"French troops having received orders not to pass the Bulgarian frontier, Strumitsa has not been occupied by the Allies."

The Bulgarians are concentrating troops in haste in Bulgaria supposedly because Rumanda appears to be leaning more toward the Entente. At the same time three divisions of Bulgarians are concentrating on the Greek frontier. The entire Bulgarian coast on the Aegean Sea has been evacuated by the civilians and the authorities.

**CENTRAL POWERS TO WAGE  
WAR AGAINST MONTENEGRO**  
LONDON, Oct. 20.—Reports from Frankfurt say the Central Powers have decided to undertake still another campaign, this time against Montenegro.

According to the report 20,000 Austrian and German infantry with artillery have arrived from Galicia in Romania about 60 miles north of the Montenegrin border.

Severine Diplomats Delayed.  
ATHENS, Oct. 20.—The diplomatic corps at the Serbian court has been compelled to remain in Nish for the present, their departure for Monastir having been postponed because of interrupted railroad communication between Nish and Saloniki.

Claims of \$50,000 Are Filed Against Thompson at Wheeling.  
By Associated Press.  
WHEELING, W. Va., Oct. 20.—Two attachments aggregating \$11,000 were filed here today in the Ohio county circuit court against J. V. Thompson, the banker of Uniontown, Pa. The suits attach real lands in the Highland district, Ohio county.

With these filed today, seven suits have been instituted against Mr. Thompson here. Within 10 days, two attachments aggregating \$50,000 have been filed against him last week.

**SOMERSET DELEGATION ON WAY**

No Announcement Is Made as to Filander's Plans and He Is Reported to Be in New York; No Suits Will Be Filed in Fayette County Today.

Special to The Courier.  
UNIONTOWN, Oct. 20.—Almost every member of the Fayette county bar attended a meeting held in the court house this forenoon to determine the future course of counsel for creditors of Joseph V. Thompson. The meeting adjourned about noon to meet again at 8 o'clock this evening.

At that time a delegation of lawyers from Somerset county will meet with the local attorneys. The Somerset delegation will be headed by Attorney John R. Scott.

No suits were filed against Thompson in the Fayette county common pleas court this forenoon, and it is not likely that any will be filed until tomorrow, at least. Attorneys for Mr. Thompson this morning declined to say that the coal magnate will file a petition in voluntary bankruptcy in the United States court.

Mr. Thompson was not present at the meeting in court house, and it was reported that he left last night for New York. H. S. Dumbauld, president of the Fayette county bar association, who brought to a head the present crisis with an appeal to the Supreme Court for a mandamus on Judge J. G. Van Swearingen to hand down the receivership decisions, was absent from the meeting today. It was said that he is in Pittsburgh.

Mr. Thompson was called to order shortly after 9 o'clock. It was decided at the beginning of the meeting that persons not members of the bar had no place in the meeting.

Ex-Congressman A. E. Cooper, who with Attorney W. S. Starnes accompanied Mr. Thompson to Pittsburgh yesterday, was called upon to give a report to the meeting of Mr. Thompson's decision. Mr. Cooper read a statement of the conversation in Pittsburgh in which he and Dr. T. Watson, Mr. Thompson's chief adviser, were the principals.

It was announced at the conclusion of the meeting that another session will be held tonight, and that until after that meeting no suits will be filed by the local attorneys.

Much interest was shown in the affair by persons outside the members of the bar. Groups of bankers and business men waited in the lobby of the court house, in front of the building and in the vicinity of the law offices awaiting the reappearance of the attorneys who might give them information as to what the course of action will be. The entire community here seems to be agog over the present situation.

Prothonotary William McPheland will be held for the night of suits. He placed a rush order for a new continuance docket for the suit entries yesterday and it arrived in his office this morning. Extra clerks were on hand to care for the rush which failed to materialize.

Practically every member of the local bar worked late last night preparing their suits in order to file them today if such action was decided upon. Nearly every lawyer has 20 or more suits in file and some lawyers are said to have hundreds ready for filing.

Business in all of the court house offices was at a standstill all morning while the meeting was in progress. None of the court house officials, however, were permitted in the court room where the meeting was held.

**FALLS INTO TUB**  
Baby Has Narrow Escape From Drowning in Bath.

John O'Brien, the ten months old child of Mr. and Mrs. William O'Brien of South Connellsville, had a narrow escape from drowning yesterday morning about 11 o'clock when it fell into a tub of cold water which had been placed in the O'Brien yard yesterday morning.

**COMMITTEES NAMED  
TO TAKE CHARGE OF  
HALLOWE'EN PARADE****Big Delegation Is Assigned  
Task of Watching the  
Youngsters.****FIREMEN HOLD ANOTHER CONFAB**

Details for Big Mummers' Parade on October 29 are Fast Being Rounded Up; Slips; Funds are Ample and a Big Prize List Is Announced.

A third meeting was held by the West Side Firemen in the hose room on the West Side last evening and more plans for the Halloween celebration to be held here October 29, 1915, were discussed. From the committee that is being shown by the firemen school authorities and others interested, indications are that the celebration will be the most successful the city has had.

The financial committee reported that the money now in the treasury amounted to \$177 with over \$23 standing out uncollected. Contributions this year have been liberal and with plenty of cash to pay expenses the firemen will spare no effort to do their part.

The committee on doughnuts and apples reported that the bakers of town had been listed and all expressed their willingness to contribute. The bakers however wished to know how many would be needed before they would begin to bake. It is estimated that at least three barrels will be needed.

A committee on lights that was appointed at the last meeting reported that the Harpeth Company, whose lights were strung around Dunbar during the Old Home Week there, could furnish seventeen strings each four feet in length with colored glass for \$25 provided that the firemen would put the lights up and take them down again. The West Penn will give free electricity. The firemen will decide whether the lights should be used.

A proclamation by the mayor will be issued the day before Halloween announcing the streets that will be turned over to the mummers for the evening. Houses may be strung along the principal streets to keep the crowd back during the parade.

To be eligible for a prize those in the parade will have to be in the parade during the entire evening. The judges stand is to be located near whom the judges are will not be announced.

A slight change was made in the prize list evening. Instead of giving a prize for the largest and best band, prizes will be given for the best band, largest band, and second largest band.

All school children are requested to be at their respective school buildings not later than 7:10, at which time they will start for the South Side, where the parade will be formed. The doughnuts and apples will be given away in the lobby of the school, the parade going in one door and out another.

A committee to add the police on Brimstone Corner during the parade and to keep the parade line at the school building follows: George Potter, George Martin, W. W. Welsh, Fred Silver, Russell Vaughn, Charles Moore, W. J. Robert, Samuel Rowe, John Harper, Edgar Miller, John Moore, A. J. Long, M. J. White, Claude Weiler, Joseph E. Angle, Alex. B. Hood.

Third Ward and East Connellsville—Lyman K. Miller, M. E. Frazee, George S. Connel, August Hoover, A. H. Love, Abraham Stauffer, John Humes, O. O. Elcher, Samuel Showman.

South Side School—E. C. Miner, Warren L. Wright, John M. Young, J. A. Lambert, Edgar Schwartz, William Sellers, R. S. Matthews, Joseph DeMont, John W. McClaren, Earl C. Moore, S. B. Dobbie, Charles Crowley, H. C. Hoffman, Chris. Colvin, H. G. May, Conrad Guthrie.

High School—H. B. Smith, U. M. Springer, S. G. Pegely, P. C. Saunders, G. W. Leith.

**MAY LAND PRIZE**

General North Encampment Expected to Bring Home \$100.

Though official announcement has not been made, General North Encampment No. 188, I. O. O. F., expects to be awarded two prizes of \$50 each for their turnout in the big parade in connection with the Grand Encampment at Greensburg yesterday. The prize too has been approved by the Grand Encampment and definite announcement was expected to be made today.

Connellsville's delegation consisted of 87 men, all members of General North Encampment. They carried red, white and blue umbrellas and were headed by the South Connellsville Band of 25 men. Altogether Connellsville made a splendid showing on the parade line and the prizes, which were for the encampment showing the largest turnout.

Mount Pleasant Odd Fellows, headed by the Municipal Band, also made a good showing in the parade.

The West Penn made special arrangements to take care of the crowd which traveled to Greensburg on Parade Day and Daniel Duple, Superintendent of Transportation, was in personal charge.

**QUICKLY CONVICTED.**  
Suspects Nabbed Here Found Guilty of Robbery.

Charles Jones, alias "New York Hank," and Roy Duggs, were found guilty on the charge of breaking and entering preferred against them by the police of the Baltimore & Ohio railroad, when arraigned at Johnston yesterday, after being arrested here.

The men are charged with robbing a station at Point Creek near Johnston. William Jackson, colored, who was thought to have been implicated in the robbery, was also charged with taking a train of goods from a store in Johnston. The men were held for court.

**PENNSY OFFICIALS HERE**  
They Inspect the Railroad and Buildings of Company.

Officials of the Pennsylvania railroad were here today inspecting the South-west branch. Although the inspection had been expected, the date was later than usual and H. C. Cable, who has charge of the West Side property, had plenty of time to get it into first class shape.

Word was received a few days ago that the inspection would take place today and everything is ready for the officials. The tower and station have been repaired and repainted.

The Pennsylvania has quite a bit of property on the West Side, and most of it is planted in grass.

**500 TICKETS THE GOAL.**  
High School Students Busy Planning the Johnston Game.

High school students are making a strenuous effort this week to sell 500 tickets for the football game to be played here next Saturday with Johnston. Red tags have been printed and are selling for 25 cents. The tickets were distributed among the students yesterday afternoon and a fair success was met last evening.

The managers of the football team and several students that take a big interest in the athletics will canvass the town and country this afternoon in an effort to increase sales.

**EMBARGO ON ARMS.**  
None But Cartridges to Be Supplied From U. S.

WASHINGTON, Oct. 20.—President Wilson today declared an embargo on the shipment of arms and ammunition into Mexico.

President Wilson signed a supplementary order, however, which excepts General Carranza's government from the embargo and permits munitions to go through to him unhindered. The prohibition applies to the faction opposed to the government which the United States has recognized.

By Associated Press.  
BROWNSVILLE, Oct. 20.—Poses of civilians and about 1,000 United States soldiers today continued to patrol the border and search for Mexicans suspected of taking part in the wrecking and robbing of a St. Louis, Brownsville & Mexico train.

The killing of 10 Mexicans captured by posse yesterday has failed to allay apprehensions of further trouble as none of the posse claimed to have shot any of the bandits.

**ALLEGED HUGE PLOT  
TO WRECK THE COAL  
INDUSTRY OF W. VA.****Operators Denounce Freight  
Rate Tinkering at Fair-  
mont Gathering.****PENNSYLVANIANS ARE BLAMED**

Pittsburg District Operators, Railroads, Ohio Producers and Miners' Union All Declared to Be in Scheme to Close Down West Virginia Mines.

West Virginia coal operators who for years have enjoyed distinctly favorable freight rates, have opened their eyes to the possibility of existing differentials to the Lakes and points west, and at a convention of the State Board of Trade at Fairmont yesterday declared that a huge plot exists among the railroads, the coal operators and miners' union of the Central Competitive Field, which includes Western Pennsylvania, Ohio, Illinois and Indiana, to stifle the coal industry of the Mountain State.

According to the speakers who addressed the business sessions of the State Board of Trade and the banquet in the evening, the coal mining industry of West Virginia is facing the most serious crisis in its history. An increase of 15 cents in the differential between existing rates between West Virginia and Ohio, it was declared, would put every mine in West Virginia out of business. Speakers declared that the increased differential on coal shipped to western points is but the outward wedge of another scheme on the part of the Pennsylvania railroad and its allied interests, to put West Virginia out of the coal business.

Ancient and modern coal history was presented at the sessions especially by J. W. Dawson of Charleston, secretary of the West Virginia Coal Operators' Association. Mr. Dawson declared the Pennsylvania railroad and the Pittsburgh Coal Company to be the real backers of the present movement, with the Ohio operators and miners supporting it to enable that state to regain, at West Virginia's expense, what Ohio lost through the passage of the anti-trust act.

According to Mr. Dawson, Ohio freight rates are reasonable, and should not be disturbed because legislation has been enacted in that state which prevents the coal operators from operating at a profit.

Dawson and other speakers quoted statistics showing that both Ohio and Western Pennsylvania operators get more for their coal at the mine than do the operators of West Virginia, and that the rate of the railroads in the proposition, Mr. Dawson called attention to the fact that when a conference was held with the Interstate Commerce Commission, at which time the change in differential was broached, not a single coal operator of West Virginia was represented, although agents of virtually all the eastern and western Pennsylvania coal operators participated.

"They did not complain of their own rates," he declared, "but asked the commission to increase those of West Virginia."

J. G. McKinley, president of the West Virginia Mining Institute; Dr. L. J. White, state geologist; ex-Governor A. B. White, Colonel Z. T. Vinson, prominent coal operator, and other speakers dilated at length upon the alleged conspiracy.

None of the speakers referred to the fact that the late John W. Holloman, late chief of police of the Pittsburgh district coal operators, demonstrated that West Virginia operators enjoyed a distinct advantage in the matter of rates, and that when the Baltimore & Ohio was given permission to increase its coal tariffs from West Virginia, it reduced them in order to maintain the differential which had existed prior to the time that the Pittsburgh rate was ordered cut.

**SUFFRAGE BADLY BEATEN.**

Only One County in New Jersey Is For Votes For Women.

By Associated Press.  
TRENTON, N. J., Oct. 20.—Returns today on the state election yesterday indicate that the proposed amendment to the constitution granting suffrage to women was defeated by a majority of more than 50,000. Returns from 1,679 out of 1,891 election districts give a vote of 153,577 for and 187,819 against the amendment.

Ocean county which returned a majority of 300 in favor of the amendment, apparently was the only one carried by the Suffrage workers.

**IS DISCOVERED BY A TEACHER**

Had Been Suffering From Cold and Corner Pronounced Heart Failure Cause: Came Here from Cresson at Beginning of Present Term.

Sitting in a chair in the office of the South Connellsville High School, J. M. Hostetter, principal of the high school, was found dead this morning about 9:30 o'clock by an eighth grade teacher in the building. Coroner H. J. Bell was notified and arrived here from Dawson in a short time. After investigation he pronounced heart trouble as the cause of death. Mr. Hostetter's left leg was badly swollen. In his pocket were two prescriptions for heart tablets.

Mr. Hostetter boarded at the home of Mrs. Margaret Jamieson on Painter street, South Connellsville, and a member of the family stated this morning that he had been suffering from a cold. Since his arrival in Connellsville he had not been in the best of health. H. Mahoney, janitor of the building, talked with him on his arrival this morning and he apparently was in his usual health.

The body was removed to Funeral Director J. E. Sims' parlors on North Pittsburgh street and prepared for burial. Mrs. Hostetter is visiting in Johnston and the body will be held here until it is received from the family. An inquest into his death was not necessary.

Mr. Hostetter was about 52 years old, and had been principal of the South Connellsville High School since the beginning of the term in September. For several years he taught at Cresson, his family still residing at that place. Deceased was a Mason, a member of the Old Fellows and the Knights of Pythias at Leckers, Pa. His widow and a family of children survive.

**WILD GOOSE CHASE**

Tramps in the Baltimore & Ohio yards, coupled with the imagination of an employee of the railroad, caused Chief of Police H. B. Bowers, Patrolman Thomas McDonald and Special Officer M. F. Wilhere to search for some time last evening for two men supposed to be wearing masks and who were said to have attacked a conductor. It was alleged by the informant that a conductor was beaten and his money taken from him. This was not verified.

Between 8:10 and 8:30 last evening thieves entered the lunch room of C. J. Armstrong on Water street and took a suit case containing about \$11 in cash, some clothes and a musketeer. No trace of the thieves was found.

**LOCAL PLANTS ARE  
FEELING EFFECTS OF  
THE BOOM IN COKE****Foundries and Machine  
Shops Closely Approximating Full Time.****INQUIRIES ARE BECOMING BRISK**

Big Pump Orders Turned Out by Local Concerns, With Others on Backs; Coke Companies are Rapidly Becoming Buyers. After Long Illness.

The steady improvement in the coke trade, which is taking on some of the aspects of a boom, has been reflected in improved business for local plants which specialize in the manufacture of mining equipment. These concerns are rapidly approximating full time. Virtually all of them are running every day full time, although the number of employees has not yet reached the maximum.

One manufacturer declared it would be impossible for him to give employment to his full quota of men, if he so desired.

"I am not yet sure of the future," he said. "No one can tell what the present administration will do to business, or what will develop out of the war situation. I do not care to put additional orders on hand as there is the possibility that I would have to lay them off again in the course of a few months. The men we have working are making full time, and so long as we can get along with the present force we will do so."

The past couple of years have been hard on the local concerns. The slump in coke put the coke companies out of the market for equipment. Now that the coke trade has improved there is more buying, although it will probably be some months before the orders get up to the point they were during the most prosperous periods.

Bowers Porter & Company are busy on several large orders. This concern has recently shipped seven triple axle pumps to the H. C. Brink Coke Company and is working on the remainder of an order of 15. Among the orders recently turned out are the following: Two duplex pumps for the Vesta Coal Company; a triple electric driven pump for the Carnegie Coal Company; two pumps of the same model for the Henderson Coal Company; a vertical triple for the Cresson Glass Sand Company of Mountaintop. Other orders have been placed by the Southern Coal & Coke Company of Glen Carbon, Ala.; Washington Coal & Coke Company of High Hill, Mo.; Pennsylvania P. H. & Miller, Beaver Falls, Pa.; Preston Coal Company, Federal Coal & Coke Company, Elkins, Pa.; and the company is developing a large line of triple axle pumps, said to embody novel features. Prospects for the fall trade, according to Manager C. W. Hays, are particularly good, the company anticipating that it will be on full time within the next few months.

At the Connellsville Manufacturing & Mine Supply Company nearly 100 men are working full time. The normal payroll is 125. Manager D. R. Lepley reports that their business on the books which insure steady operation for the next four or five months, with inquiries increasing in number daily. This concern is figuring on the purchase of new equipment, and orders which will represent a considerable sum. According to Mr. Lepley there is not an actual shortage of skilled labor, so far as his concern is affected. Prospects for the future are particularly bright, if the coke trade keeps on the upward trend.

At the plant of the Connellsville Machine & Car Company the foundry department is particularly busy, with the other departments steadily increasing their output. Orders are better than for many months past, with inquiries for mine equipment particularly numerous. One drunk that the equipment manufacturing concerns will feel the full effect of improved coke conditions for some months to come, as it will take that long for those concerns to recover from the long depression.

At the Connellsville Iron Works the plant is working every day, on full time. Among the larger contracts is one for three blue-face rockers to be placed on the new West Penn power house. These stacks will be 100 feet high.

**TWENTY ARRESTS MADE.**

## IT PAYS TO ADVERTISE

J. Lester Magaha's Opening a Big Success.  
When J. Lester Magaha came here from Lancaster, Md., and inaugurated a big advertising campaign prior to opening his jewelry store in the Wehr Building on South Pittsburgh street, he gave the community a memorable shock. As a result, his opening today was a big success. Mr. Magaha's idea was to get the public interested in his store. He did not expect to make sales, hence it was highly pleasing to him this morning to find patrons who bought as well as looked.

The police had to be called to keep the crowd in order when the time came for opening. Souvenirs were given to all who visited the store today.

Extensive space in The Courier—well-worked advertisements, nicely displayed—account for Mr. Magaha's success.

**WANTS A HEARING**  
Patrolman Gregg Wants Council to Pass On Suspension.  
Patrolman George Gregg, suspended yesterday by Mayor Marietta on charges of insubordination, has demanded a hearing before council. The hearing will probably be given at the meeting next Monday.

Irvin Shumaker who was appointed patrolman in Gregg's place, took up his duties on the West Side last evening.

Goes to California, Pa.  
Thomas P. Phelan of Mount Braddock, who has been in the employ of W. J. Ramey at that place for two years, has taken a position with a new castle firm in California. He began his new duties on Monday.

## The Grim Reaper

**JOHN CARY WHITE.**  
John Cary White, 55 years old, died yesterday at his home in Uniontown. His widow, two children, his father, Henry White, two brothers, William and Charles White, both of Scotland, survive.

**MRS. MARY McKENNA.**  
Mrs. Mary McKenna, 76 years old, widow of Thomas McKenna of New Salem, died yesterday at the Somerset sanitarium, where she was removed from St. Francis Hospital, Pittsburgh, last December.

**ROY L. DEVERES.**  
The funeral of Roy L. Deveres was held yesterday afternoon at 2 o'clock from the Chickerson Run Young Men's Christian Association auditorium. It was the largest funeral held in that section for some time, the large hall being nearly filled with relatives and friends of the deceased. The Iron City Division No. 14, Brotherhood of Locomotive Engineers, had charge of the services at the grave. Rev. H. A. Baum of the Cochran Memorial Church at Dawson, Oklahoma, officiated at the services at the auditorium. The floral tributes were numerous.

**MRS. AARON BLANEY.**  
Mrs. Aaron Blaney, aged 83, died at her home near Morris Cross Roads yesterday. She was the grandmother of Edward Frank Gane of the local force.

**MRS. JOSEPHINE MILLER.**  
Funeral services for Mrs. Josephine Miller were held last evening at 8 o'clock from the family residence in South Prospect street. Rev. G. L. C. Richardson, pastor of the First Methodist Episcopal Church officiated. The body was shipped to Cumberland for interment this morning by Funeral Director C. C. Mitchell.

## EDGAR HORNOR HONOURED

Chosen Solo Cornetist of West Virginia University Band.  
Edgar J. Hornor, son of E. W. Hornor of this city, has been chosen solo cornetist of the West Virginia University Band, which began a week's concert tour in Morgantown last week. Besides doing much of the solo work in the band numbers, he played a solo, "The Last Chord." The university band is considered the best in the state and it is necessary to be a finished musician to become a member. Edgar Hornor is a sophomore at the university. He was a member of the Connellsville Military Band here.

## A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

**If Peevish, Feverish and Sick Give "California Syrup of Figs."**

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign his little stomach, liver and bowels need a cleansing at once.  
When belious, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleanser should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's use; give a teaspoonful, and in a few hours all the food waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "Fruit Laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.  
Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."—Adv.

## FIRST LECTURE PLEASES

Teachers Attend Session Given in Lieu of the Institute.  
The first of a series of lectures on "School Room Psychology," which is to be part of the University of Pittsburgh extension course taken by the Connellsville school teachers and a number of others in the high school assembly room yesterday at 4 o'clock, Dr. Joseph H. White was the speaker. The subject was "Sociability," and after outlining the course of lectures generally, the speaker launched into a practical discussion of sociability, and the causes for the lack of it in a school room.  
Dr. White will deliver the second lecture of the series on Tuesday afternoon on "Psychology of Cramming." Teachers who desire college credits for the lectures are required to read "Social Psychology" and prepare notebooks on it and the lectures.

## What Is Your Blood Pressure?

The age of the 40s is a critical period in every person's life. And one of the most common things that make it critical is increased "blood pressure" with its accompanying "hardening of the arteries."

Scientists have fully proven that increased blood pressure is caused by poisonous deposits in the delicate tissues of the arteries. One of the chief agents in this process is coffee, with its poisonous drug, caffeine.

"A man is as old as his arteries," life insurance companies say, and the Blood Pressure Test is one of the principal factors nowadays in determining a "risk." How do you stand?

If there is any doubt about coffee's hurting—if you have frequent headaches, biliousness, sleeplessness, nervousness, or heart flutter—try a 10 days' change to

## Instant Postum

The pure food-drink.

Made of prime wheat roasted with a bit of wholesome molasses. Instant Postum contains no caffeine, no cumulative, harmful drug, nothing but the good food values of the cereal.

Postum comes in two forms: The original Postum Cereal—must be well boiled, and Instant Postum—the soluble form, made in the cup instantly.

One of the first steps away from increased Blood Pressure in coffee drinkers is POSTUM.

## HUGE SHIPYARDS ARE ACQUIRED BY CHAS. M. SCHWAB

Seeks to Make Bethlehem  
Greatest Builder of Ves-  
sels in Country.

### MANY PLANTS ALREADY IN LIEE

Acquisition of Maryland Steel Com-  
pany a Big Item and Numerous Other  
That the Big Group Yards are Now  
Under Control of Steel Magnate.

Charles M. Schwab is perfecting plans for making the Bethlehem Steel Corporation the greatest shipbuilding organization in the country. In the number of shipyard ways which will form Bethlehem properties, according to the plans, Mr. Schwab will have one of the largest organizations of the world, although in size of merchant vessels to be constructed, his works will still be exceeded by such organizations as the British firms of Harland & Wolff, and of Workman, Clark & Company, and the Vulcan yards at Hamburg.

The acquisition of the Pennsylvania Steel Company is one of the leading steps by Mr. Schwab in his present plans. A rebuilding and an early placing in operation of the Crescent shipyards on the Arthur Kill, at Elizabethport, N. J., will be another. The Crescent shipyards were, at one time, among the leading builders in this country of cruisers, torpedo boats, submarines and other war craft, executing contracts for the United States, Russia and other governments. Since 1907, the Crescent Shipyard Corporation has been consolidated with the Samuel L. Moore & Sons Corporation, a subsidiary of the Bethlehem Steel Corporation.

The Moore plant consists of iron foundries, machine shops, etc. It has extensive facilities for marine repair work and, according to the plans, extensions to its plants are to be begun at an early date, the estimated expenditure of \$1,500,000.

The Fore River yards and the Union Iron Works of the Bethlehem Steel Corporation have been used, thus far, for the building of hulls on the orders placed with the Submarine Steel Corporation, but will prove inadequate for the handling of the orders placed on the books in the last few months, largely through Mr. Schwab's efforts, and additional orders now under negotiation, the closing of which appears assured. In the latter are included negotiations with Japan, and with one of the neutral nations of Europe.

Acquisition of the Pennsylvania Steel Company gives the Bethlehem Steel Corporation the Sparrow's Point shipyards which have turned out the highest class freight vessels constructed in any American yard. The Sparrow's Point yards belong to the Maryland Steel Company in its turn controlled by the Pennsylvania Steel Company.

An outline of Mr. Schwab's ambitious plans for the acquisition and development of shipyards was first afforded a few years ago when an announcement was made of the purchase by the Bethlehem Steel Corporation of the Fore River yards at Quincy, Mass. The entire list of shipbuilding plants which the Bethlehem Steel Corporation now owns, following the acquisition of the Pennsylvania Steel Company is as follows: Sparrow's Point yards at Sparrow's Point, Md.; Union Iron Works Drydock Company, San Francisco; Harlan & Holtzworth yards at Wilmington, Del.; Fore River yards at Quincy, Mass.; and Crescent yards at Elizabethport, N. J.

That Mr. Schwab has acquired other shipyard properties has been persistently rumored for months, his name having been most frequently coupled with the reported change of control of William Cramp & Sons Ship & Engine Building Company. The Bethlehem Steel Corporation and the Cramp yards have for years worked together on contracts for vessels for the United States, for Argentina and other governments. The Cramp is the largest single shipbuilding plant in the country.

The House shipyards at Chester, Pa., recently passed to new owners, the identity of whom has not been made known, and there has been a similar air of mystery regarding deals put through affecting shipyards on the Gulf, in which Mr. Schwab's name not surprisingly has appeared, but there has been no instance in which the rumors of acquisition by Mr. Schwab have been so persistent and have had the appearance of an inside basis as with regard to the reported deal with the Cramp yards. Nothing further could be learned at the offices of the Bethlehem Steel Corporation regarding the purchase of the Pennsylvania Steel Company. It is believed in steel circles that there will be no merger of the two concerns, but that they will be operated separately. It is pointed out that there are many benefits to separate operations and that the Bethlehem Steel interests will take advantage of these.

### MESSIAH'S KINGDOM

Glorious Day of Divine Favor Near.  
The period in which sin is permitted has been a dark night to humanity, never to be forgotten; but the glorious day of righteousness and divine favor is soon to be ushered in by Messiah. He, the Son of Righteousness, shall arise and shine fully and clearly into and upon all, bringing healing and blessing, which will more than counterbalance the dreadful night of weeping, sighing, pain, sickness and death, in which the groaning creation has been so long. Weeping may endure for a night, but joy cometh in the morning.  
For further light on the coming Kingdom send thirty-five cents for the Helping Hand for Bible Students, entitled, "The Kingdom Come," Bible and Tract Society, 17 Hicks street, Brooklyn, N. Y.—Adv.

## BRIGHTER CHILDREN

Children are probably brighter to-day than a generation ago—but are they stronger? That's a grave question. So many pinched faces, dulled eyes and languid feelings make us wonder if they will ever grow into robust, healthy men and women.

If your children catch colds easily, are tired when rising, lack healthy color, or find studies difficult, give them Scott's Emulsion for one month to enrich their blood and restore the body-forces to healthy action.

Scott's Emulsion is used in private schools. It is not a "patent medicine," simply a highly concentrated oil-food, without alcohol or harmful drugs. It cannot harm; it improves blood; it builds lungs and strengthens the system. Your druggist has it—refuse substitutes.  
Scott & Bowne, Bloomfield, N. J. 15-21

### Mount Pleasant

Special to The Courier.  
MOUNT PLEASANT, Oct. 20.—The St. Joseph's Sodality gave a miscellaneous shower for Mr. and Mrs. Joseph Proud at the bride's home at Standard last evening.  
Miss Gertrude Crawford, aged 42 years, who died at Coshocton, Ohio, was brought here yesterday by Mrs. Nelson and her daughter, Maude. Following services in the United Presbyterian Church interment was made in the cemetery. Miss Crawford was a sister of Mrs. Nelson.

A fire alarm last evening about 8 o'clock called the local ladders out. The call was sent into the department from the French Run coke works, where they have recently begun operations and the coke being too hot had set fire to the ears. The fire was turned on it until the shifter could pull the burning ears away.

Friends of Charles Schuchte gave him a very pleasant party at his home at his 22nd birthday anniversary. Seventy-five guests from Hecla, Mount Pleasant and Stauffer were present.

Mrs. John Bowman is in the Memorial Hospital, where she is undergoing treatment.

Mrs. J. J. Hunt of Mill Grove, Pa., sold through Miss Lily McAdams her two houses on Main street to Samuel Winberg. Mr. Winberg will occupy the larger of the two houses.

Mr. and Mrs. Lindsay Hughes of Uniontown, were guests of friends here.

Mrs. James McDonald Dwyer and Miss Anna E. Shupp motored to Wooster, Ohio, to visit Mrs. Ralph Harnhart.

Mrs. Charles Pross of Greensburg, was calling on friends here last evening.

The ladies of the Reformed Church held a meeting to complete arrangements for a church supper to be given November 2 in the Bank Building.

## RUB RHEUMATIC PAIN FROM ACHING JOINTS

Rub Pain Right Out With  
Small Trial Bottle of Old  
"St. Jacob's Oil."

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub something penetrating, "St. Jacob's Oil" right on the "tender spot," and by the time you say Jack Robinson, out comes the rheumatic pain and distress. "St. Jacob's Oil" is a harmless rheumatic treatment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops rheumatism, lumbago, backache and neuritis.  
Limb up! Get a small trial bottle of old-time, honest "St. Jacob's Oil" from any drug store, and in a moment, you'll be free from pain,aches and stiffness. Don't suffer! Rub rheumatism away.—Adv.

### MEYERSDALE

MEYERSDALE, Oct. 19.—Mr. and Mrs. Joseph Grabenstein and two sons of Greensburg, Md., motored here on Sunday and were guests at the home of Mrs. Grabenstein's parents, Mr. and Mrs. John Stueper. They returned home in the evening accompanied by Mrs. Anna Huxley and Miss Margaret. Twelve who visited there for a few days.  
Mrs. John P. McCabe, daughter Emily, Mrs. D. S. Stephan, daughter Catherine, and Mrs. C. O. Cook and daughter Mary, all of Hecla, were recent guests at the home of Mrs. Cook's parents, Mr. and Mrs. W. F. Payne of Meyersdale.

Rev. A. S. Gleason who spent several days attending the Reformed Synod at Evans City, returned home yesterday.

Mrs. D. A. Friedline and daughter, Miss Alice, returned home yesterday, after a few days' visit at Frostburg and Cumberland, Md.

Mr. and Mrs. C. E. Deal were recent visitors with relatives in Connelldale.

Mrs. L. W. Weekand is visiting for a few weeks with relatives at Carrolltown.

Mr. and Mrs. Lloyd Imber and little daughter have returned from Bedford, where they had been visiting relatives for several weeks.

Stomach Troubles.

Digestion is largely a mechanical process. When there are stomach troubles there is usually a weakness of the muscles upon which digestion so largely depends. To strengthen these muscles and overcome stomach troubles our druggists, the Laughter Drug Company, guarantee "Vinal," a reliable non-secret remedy, which contains iron to purify and enrich the blood, the medicinal extractives of fresh cod liver, without oil, and the purifying properties of beef peptone, all combined in a delicious native wine. If you are suffering from stomach trouble, it will pay you to try it.—Adv.

Rockwood.

ROCKWOOD, Oct. 19.—Mrs. J. R. Shanks has returned home, after spending a vacation with relatives at Connelldale.

The W. C. T. U. of Rockwood and the surrounding towns will hold an institute in the Reformed Church on Wednesday afternoon and the evening of the 20th. United Evangelical Church where luncheon will be served in the basement after the institute. Mrs. Stewart of Chicago will speak both afternoon and evening.

Born to Mr. and Mrs. Arthur Mayhugh in South Rockwood, a darling baby girl on October 17.

A number of Rockwood people attended the dedication services of the Lutheran Church at Jerome on last Sunday.

H. S. Wolfersberger spent Monday in Connelldale.

Dollar Eyeglasses.

No man can test your eyes, furnish the proper lenses and grind them for a dollar. He would land in the poor house if he did.

The phrase dollar glasses is used by fakirs to attract your attention and when they get you in their office they always tell you that the cheap glasses will not fit your eyes and that you require their "special ground lenses" and the usual result is they extort from you as much as they can, in many cases from \$5 to \$20 for glasses that are absolutely worthless. If you have been stung by these fakirs, let us be a lesson to you, and do your best to warn your friends against them, and in the future be sure that the man who fits your glasses is a well known reliable local resident. There are several competent and reliable men engaged in the optical business in Connelldale who will treat you right and give you your money's worth.—Adv.

Stack Relighted.

Temple Furnace Resumes Operations After a Year.

Temple blast furnace has been re-lighted joining the Robesonia stack which resumed last week. Temple furnace has been improved materially during a year's absence.

The Robesonia plant was blown out last May, torn down and rebuilt along modern lines.

Notice to the Public.

Don't forget that you can get all kinds of high grade plumbing, pipes, steam, hot water and hot air furnaces. All kinds of heating material, rubber roofing and tinning supply at prices less than Sears-Roebuck or any catalogue house can make you. Do your buying of this material from me and I will save you money. All work in our line done promptly and guaranteed. Frank P. Welker, Plumbing, Tinning and Heating Engineer, Office and show room 322 Eighth street. Both phones.—Adv.

It Saved This Baby's Life.

### THE MACEDONIAN CRY.

The Macedonia Standard always has a severe attack of political virtue along about election time. It wrings its hands and cries aloud for the purity of the ballot about to be debauched by the bad Republicans. It is just now engaged in throwing out of these articles political spasm. The performance is amusing to people who are on the inside of Fayette county politics and who know that the difference between the working methods of the Democratic and the Republican organizations isn't worth mentioning. The Republicans of Fayette county don't have to debauch the elections to win. They have the people with them. The people are disgusted with vain Democratic pretense and the people do the ruling in spite of intimations to the contrary. Machine methods we have had in both parties for many years. The machine is only another name for the political organization and the boss is only the opposition name for the leader. But when the people see it to assert themselves they are the boss and the machine rolled in one.

The Macedonia cry of the Democratic organs of Fayette county is not a cry against threatened corruption but a cry against threatened defeat. It is not a plea for the purity of the ballot, but a plea for the credulous vote; it is not honest politics, but political chicanery, and he who is deceived thereby is not wise.

### THE MENIC ROUTE.

There has been considerable speculation over the location of the proposed Lincoln Highway through Pennsylvania, but the Greenbush Tribune announces upon authority that there will be no change in the location as at present laid out. It says:

"The people living along the proposed route in the vicinity of Hagerstown, Ellettsburg, Altoona and Huntington will likely be disappointed, but they will not lose the road because they never had it. The people of Bedford, Ligonier and Greensburg, together with those residing at intervening points, will be pleased over the decision of the secretary that the route shall remain at the present location. Citizens along the proposed northern route made a heroic effort to have the route through the central part of the state changed, but the old, prominent, historic route, described with the direct energy, is destined to remain. It may not be the shortest route through the state nor the one with the easiest grades on mountains and hills, but it certainly has a popularity which is nation-wide. The fact that the old plan is destined to remain at the same location in the future as in the past will keep the value of real estate from shrinking. Many people will try to get as close to the route as other people have made efforts to get close to the Pennsylvania railroad. Small towns will receive a commercial impulse similar to that of coaching days."

The admission that the Bedford-Ligonier-Greensburg route is not the best route, but that it has been secured and more historic associations is interesting. It brings up the question whether the Lincoln Highway is intended to be a stretchy thoroughfare with the best possible grades, or whether it is to be a scenic route drawn through the pages of history. The speed artists will be for a speedway, but the pleasure-going will vote for the scenic line with its patriotic air.

### SHOULDER THOSE BOND.

Councilman Hirschman disposes the objections to the Conneltsville short term street paving bonds as "captious and frivolous" and in consequence the Council will proceed with the business of letting the contract. The decision is in conformity with common sense and common justice and the contractors are so well satisfied with the bonds that they have pledged their willingness to take large quantities of them in payment for their work. There does not seem to be any doubt of the ability of the city to convert the bond issue into cash on short notice. The bonds are a favorite security for banks and other investors. There is no reason why they should not be. They bear 6% interest and have first-class security behind them. Now let the improvements proceed in order.

### JUSTICE FOR THE RAILROADS.

The Parcel Post went into operation in 1913. Ever since the railroad, which had long been complaining of inadequate payment for carrying and handling railway mail, have been insisting that the bulk of the burden of the cost of the new parcel service was being borne by them and not by the Government or the public. They have objected particularly that the system of weighing the mail only every four years was unfair and should be changed to annual rates. They have demanded a fixed and fair standard of payment based on retail similar service cost the private shipper, contending that weight, haul, speed and frequency of service should all be considered, as well as every facility furnished by the railroad, including the handling of mail between trains and postoffices along the lines and the movement of the more than 4,000 railway postoffice cars. But their most emphatic protest has been against the railway mail rate being in effect regulated by the Postoffice Department, which is chiefly interested in making a good showing on its balance sheet.

"Congressional consideration of the railway mail pay has not been on a business basis," says the Pittsburgh Dispatch. "It has been discussed too often with an eye only for political effect, the pose of holding down the railroad being supposed to be specially effective. The postal administration has not been free from the same fault. The suggestion is now made that the railway mail rates should be left to the Interstate Commerce Commission, a disinterested body technically qualified to pass judgment. The argument that if the commission is the proper authority to regulate commercial rates it should be empowered likewise to regulate mail rates will strike most persons as reasonable. The whole question will be raised early in the next session of Congress."

### CONNELLSVILLE COKE.

"The day has passed when the word Conneltsville means anything in the coke market," Coke is sold upon analysts and not because of any magic supposed to be attached to a name," says the Uniontown Record.

On the contrary, the coke can go to Conneltsville the higher price it commands, and even Uniontown coke operators are well content to sell their product as Conneltsville coke.

Colonel Bill Stone ought to tip off Editor Henry Baker Reilly better than this.

The Democratic organs say there are more clerks in the court house since the fee system was abolished than before, but there is also more business in the court house. The fee system was abolished because the growth of the county automatically passed it on to the salary system. Under the fee system the county received no benefits whatever; under the salary system, there has been some revenue to the county, especially from the office of the sheriff, whose business has been wonderfully enhanced by the Democratic times.

Bethlehem Steel shares at \$500 may be all right for speculation, but a little high for investment. The share has been carried into the stock market.

Caranza has been recognized by the American governments. Now if he can only get his own government to do as well with him he will be all right.

That Conneltsville slaughter was purchased with considerable back action.

Scottsdale, Iverson and South Conneltsville are coming in strong on the Conneltsville Halloween parade. Danbar, Dawson and Vanderbilt remain to be heard from.

Buy a football ticket and help the boys along.

Train bandits are nothing too numerous. It is astonishing how a bad example, successfully set, finds imitators.

Conneltsville is something of a crime center, but it is one of the penalties of being a railroad center.

The lid is lifted from the Thompson pot and there's danger of a big boiling over which is going to make a great many good people.

The Isabella road contractor says he will have the street paving finished before the snow flies. He ought to have had it done before the leaves fell.

While William Jennings Bryan keeps on preaching peace, the European nations keep on declaring war.

The fall lightning has considerable fire in it.

The trolley pickpocket gave another demonstration of his cleverness, sawing his way out of the Conneltsville lock-up. If he never returns all will be forgiven.

The damage suit entered against a Dunbar township patrol by two persons whom he ran down on the Trotter road raises some questions concerning the relative rights of vehicles and pedestrians on the public highway which will be interesting as setting precedents for other cases.

The News editor ought to be excused from locking up the town at night and be compelled to wind up that alleged town clock every morning.

If it be true that the British have lost 100,000 men in the barbed wire campaign it would seem that the Sick Man of the East must have made great recovery. Perhaps it was the German medicine.

The report that Villa has been executed by his own troops is unconfirmed, but it begins to look as if we have for him to make his getaway if he be alive in the situation.

Somerset county has lost a patent medicine factory, but gained an \$1,000,000 order for war materials. The Frosty Fox seems to be holding their own.

## Steadily Advancing.

### Good Nature

By GEORGE MITCHELL  
Author of "A Good Old Slaw."

Good nature is a combined strength and weakness of mind which enables a man to endure patiently a scolding wife, an arduous task, a late dinner, a selfish wife holder, a chronic hope and an insatiable ticket agent, a small boy who has just asked his 1,111th question, an automobile suffering from shyness and the telephone in all its phases and conditions.

Good nature is the breeding ground of laughter, the guardian of friendship, the lubricant of smooth-running families, the salve of sad men, the amulet of misfortune and the curse of republics. With good nature a man can endure hard work, enjoy a large family, forget an insistent corn and enjoy the jokes of Moses.

Without good nature a man can possess twenty million dollars and get absolutely nowhere. He has been short-changed five cents by a street car conductor.

With good nature a man can run four blocks for a train that proves to be two hours late and can enjoy the incident for a week. Without good nature, a man will reach a station fifteen minutes early and a man who is late for the gates to open. Trying to endure the complications of modern life without good nature is like trying to run an automobile without lubricating oil.

The result is heat, noise, sorrow and disaster.

Good-natured men are more valuable than steamships to the world. A good-natured man can soothe through a mob of ten thousand people and make it no trouble about it than an ill-natured man can make all of himself in a church. If it were not for the good-natured men who lose their heads

no fun in winning baseball games, golf matches, billiard tournaments, track meets and political bids. If it were not for good-natured men, there would be no amateur theatricals, concerts or art exhibitions, and half the babies in the world would meet violent deaths while scolding their lungs.

Good nature is a precious boon to humanity, but it is much abused. There is too much of it for one thing. It should be rare and used with less extravagance. Good nature is responsible for bad street car service, long sermons, thieving politicians, taxicabs that run a mile and a half for the same spot, short-weight coal dealers, trust money, pre-Adamsite humor on the stage, horrible stunts, waste basket hair, detachable hair and man-eating automobiles. Having learned how to be good-natured under all circumstances, man must now learn how to forget to be good-natured. It is impossible.

Good-natured men are forever going about on their merry ways, being by will and by deed, and making it so easy to be good-natured that it is almost impossible to be bad.

Good-natured men can reform more wicked agents than a million good-natured travelers, and the man who can't stay mad from the disclosure until the election is a peril to the republic.

**Cause of Constipation.**  
Constipation results from a lack of moisture in the residual matter of the food. To effect a permanent cure more water must be taken into the system. Drink a full glass of water half an hour before breakfast, and about the third of a glass an hour and a half after each meal, and eat an apple or banana before breakfast and before going to bed. Make sure that your bowels move just after breakfast. Just whether there is an inclination or not. When a medicine is needed take Chamberlain's Tablets as they are mild and gentle in effect, but none the less should be taken when operations can be induced naturally each day. To effect a permanent cure time and patience are required as bad habits are more easily formed than broken up. Obtainable anywhere.—Adv.

**Treeless Notices.**

## Thin Men and Women

Do You Want to Get Fat  
and be Strong.

The trouble with most thin folk who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy food; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract properly assimilates the food you eat.

There is a preparation known to reliable druggists almost everywhere, which seemingly embodies the missing elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This preparation is called Sargol and much remarkable testimony is given as to its successful use in flesh building. Sargol which comes in the form of a small non-injurious tablet, taken at meals

and mixing with the digesting food, tends to prepare its fat, flesh and muscle building elements so that the blood can readily accept and carry them to the starved portions of the body. You can readily picture the transformation that additional and previously lacking fleshmaking material should bring with your cheeks filling out, hollows about your neck, shoulders and bust disappearing and your taking on from 10 to 20 pounds of solid healthy flesh. Sargol is harmless, inexpensive, efficient. All leading druggists of this vicinity have it and are authorized to refund your money if weight increase is not obtained as per the guarantee found in each large package.

Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion should be taken about using it unless a gain of weight is desired.—Adv.

### STEEL HOUSES

Wanted in War Zone and Requirements are Tremendous.

An interesting war proposition to which certain eastern steel makers now are giving attention concerns the building of great numbers of portable houses for the battle territory. Certain of the allied governments are negotiating with manufacturers in this country for the designing and building of these shelters which, though intended to be temporary in character, must be durable and complete enough to accommodate a family for an indefinite period.

Originally facilities were put out for vast quantities of lumber from which to construct these houses, but it was found this material would make the cost excessive and the plan was dropped. Now it is proposed to employ steel construction, which if in uniform design is adopted, can be produced in great numbers at a minimum cost.

The proposed houses are to contain two rooms. A plan now designed calls for the use of a frame work of light channels and a covering of galvanized sheets or some other unflammable material. Each of these structures will contain about a ton of steel.

### GOES IN FOR BENZOL

Virginia Coke Company is Recovering Rich By-Products.

The Virginia Iron & Coke Company has practically completed the work which it began some months ago for the utilization of the by-products of its extensive coke properties, and has already begun the delivery of benzol to agents of the allies on a large scale. The sales of benzol, large quantities of acetone and other valuable by-products of the coke-making process, have brought a particularly heavy demand for coal.

Arrangements are now being made by the company to place the entire properties in shape for the benefits expected to accrue from the United States government expensive naval program. The shipyards, governmental and private, in that section of the country have always drawn heavily on the properties of the Virginia Iron, Coal & Coke for their supplies in both iron and coal. In the last few months the general public in shipping and industry in that section of the country has brought a particularly heavy demand for coal.

### HAS FAITH IN QUICK REMEDY FOR CATARRH

A. A. Clarke Guarantees That Hyemol Will Relieve the Worst Cases of Catarrh in a Week.

When one of the most reputable concerns in Connelville guarantees that a medicine will produce benefit or will refund the money, it speaks volumes for the merits of that remedy. It is in this way that A. A. Clarke is selling Hyemol, the treatment that has helped so many cases of both acute and chronic catarrh in this vicinity.

Hyemol is not a pill nor is it a spray or a lotion that must be rubbed in. It is an oil, the air of which you just breathe in your nose, throat and lungs by the aid of an inhaler that comes with every outfit. Hyemol will usually be seen from the very first treatment.

This air destroys all germ life in the air passages and lungs and enriches and purifies the blood with the aid of an inhaler that comes with every outfit. Hyemol will usually be seen from the very first treatment. ### NEW ECZEMA CURE

Anti-epithelium Remedy That Cures Most Cases in Short Time.

The many sufferers from eczema in Connelville and vicinity will welcome the news that a new anti-epithelium has been discovered that relieves the itching and soreness almost as soon as it is applied, and which will soon make an absolute and thorough cure in even the worst case.

Anti-epithelium kills the germs when applied to the diseased skin, and grows new, healthy flesh that is free from soreness and eruption.

A liberal supply can be had for not more than 50 cents at any good druggist while A. A. Clarke sells it with a guarantee to refund the money if it does not do all that is claimed.

Do not suffer longer with eczema or other skin troubles but use pure, healing anti-epithelium and be cured.—Adv.

## OUR GENUINE OFFER

\$1 Glasses

BEGINNING

Wednesday, Oct. 20, 1915

AND ENDING

Saturday, Oct. 30, 1915

We offer to make you a fine pair of glasses, including the King Scientific eye examination. First Quality Crystal lenses, a guaranteed gold-filled frame or nosepiece, made to order, and perfectly fitted by our expert Frame Fitter; also an elegant case, all for \$1.00.

Special Ground Lenses at lowest prices. After Saturday, October 20, 1915, our regular charges for eye examination and glasses go into effect.

## Don't Give It Up

No matter how skeptical you are, or how many times you have failed to receive correct glasses, or who has given up your case, or the price you have paid—come to us. The reason we have fitted hundreds of cases where all others failed is—we examine eyes and fit glasses.

By simply looking into the eyes, taking the exact scientific measurements of the shape and focus of the eyes. Without the use of Drops of Medicine, Without Test Cards, or Charts, Without Asking a Question, We do the examining and we do the fitting, not from what you tell us, but from the exact conditions of your eyes.

## Don't Suffer

With Poor Sight, Blurry Vision, Watery Eyes, Cross Eyes, Headaches, Trembling, Nervous Debility, Nausea, Dizziness, Insomnia.

and other troubles often caused by eyestrain. Absolutely FREE OF Charge or Obligation to purchase glasses, we will examine your eyes, and if glasses are needed, we will frankly and truthfully tell you so, and we can fit you to glasses which will relieve and correct your trouble.

## An Appeal to Reason

Others who claim to examine eyes and fit glasses all use practically the same method. You are sometimes subjected to drops or you read letters or describe lines. You have a great many glasses tried on your eyes, you do a lot of guessing, then confused and tired, with your eyes all out of shape, you try to select the glasses you think correct.

Think this over and you can readily see you have been doing your own examining, and this no doubt, is the reason you have failed to receive proper glasses.

By the King Scientific Method we examine the eyes and fit glasses with perfect accuracy.

**NOT WORTH BUT ALLEIGHING THIS RUCHE OF ROBES.**  
For theatre wear is a new neck-ruche, made of closely crushed ribbon formed into little roses. At the back is a mammoth bow of tulle which forms a smart and becoming background for the face. The velvet turban is apparently trimmed with butterflies, but the butterflies are really tiny wires, massed together with long, delicate allegories trailing from the centers.

**CRYSTAL BEANS AND TULLE.**  
Peach colored tulle weighted with crystal beads formed the exquisite creation for evening wear. The bodice which is merely two lengths of tulle with rows of beads traversing it is belted high under the bust with another crushed length of tulle tied in a huge butterfly bow at the front. Below this hangs a fringe of beads. Two tulle blouses cover an underskirt of the same and flounces and skirt are each weighted with the sparkling bead fringe.

## FARMER'S WIFE TOO ILL TO WORK

A Weak, Nervous Sufferer  
Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Kasota, Minn. — "I am glad to say that Lydia E. Pinkham's Vegetable Compound has done more for me than anything else, and I had the best physician here. I was so weak and nervous that I could not do my work and suffered with pains low down in my right side for a year or more. I took Lydia E. Pinkham's Vegetable Compound, and now I feel like a different person. I believe there is nothing like Lydia E. Pinkham's Vegetable Compound for weak women and young girls, and I would be glad if I could influence anyone to try the medicine, for I know it will do all and much more than it is claimed to do." — Mrs. CLARA FRANKS, R. F. D. No. 1, Maplecrest Farm, Kasota, Minn.

Women who suffer from these distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

## WHY "ANURIC"

IS AN INSURANCE AGAINST SUDDEN DEATH!

Sufferers From Backache, Rheumatism and Kidney Trouble  
Before an Insurance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish, clog, you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment, changes often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience—such as Dr. Pierce, of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for sample package of his new discovery—"Anuric." Write him your symptoms and send a sample of urine for test. Experience has taught Dr. Pierce that "Anuric" is the most powerful agent in dissolving uric acid, as hot water melts sugar, besides being absolutely harmless and is endowed with other properties, for it preserves the kidneys in a healthy condition by thoroughly cleansing them. Being so many times more active than lithia, it clears the heart valves of any sandy substance which may clog them and checks the degeneration of the blood-vessels, as well as regulating blood pressure. "Anuric" is a regular insurance and life-saver for all the men, women and those who deposit themselves in their joints. Ask the druggist for "Anuric" put up by Dr. Pierce, in 50-cent packages.

Dr. Pierce's Pleasant Pellets for the liver and bowels have been favorably known for nearly 50 years.—Adv.

By  
**MARIA THOMPSON DAVIES**  
AUTHOR OF  
"THE MELTING OF MOLLY"

Copyright, 1915, the Century Company.

"Well, Salie Carruthers will get him and then there'll be a dozen more to run the measure over—children—hey? All girls! A woman like Salie would not be content with producing less than a dozen of her kind, hey?"

"His chuckle was so contagious that I couldn't help but join him, though I didn't like it so very much. But why shouldn't I? Salie is such a gorgeous woman that a dozen of her in the next generation will be of value to the state. Still, I didn't like it. I didn't enjoy thinking of Cousin James as so serving his country."

"Carruthers left her to James. He'll have to take care of her. Henry turned toes in good time. Filled rotten old business and big family on to James' shoulders, and then died—good time—hey? Get a woman on your hands, only thing to do is to marry or kill her. Poor James—hey?" He peered at me with a twinkle in his eyes that denoted ascent from him.

"Why, Uncle Peter, I don't know that Salie has any such kin. She grieves dreadfully over Mr. Carruthers, and I don't believe she would think of marrying again," I answered, trying to put enough warmth in my defense to convince myself.

"Most women are nothing but gourd vines, grow all over a cornstalk, but it produces gourds until it feels just begin all over again in the next generation. James has to do the hoeing around Salie's roots and feed her. Might as well marry her, hey?"

"Does—does Cousin James have to support Salie and the children, Uncle Peter?" I asked, coming with reluctance down to the rock bed of the distasteful.

"Think he does, and it serves him right—serves him right for starting out to run a widow ranch in the first place. It's like making a collection of old shoes. He let Henry Carruthers persuade him to mortgage everything and buy land on the river for the cure of the new railroad which just footed the town out of \$10,000 and is going by on the other side of the river with the shops up at Holler. If James didn't get all the lawing in Allen county they would all starve to death, which would be hard on the constitution of old lady Hargrove and her two hundredweight."

"Oh, has Cousin James really lost all of his fortune?" I asked, and I was surprised at the amount of sympathy that daisy that rose in me at the information.

"Everything but what he carries around under that old gray hat of his. Not so bad a fortune at that, hey?"

I feel I am going to love Uncle Peter for the way he disdainfully admires Cousin James.

"And—and all of his—his guests are really dependent on him?" I asked again as the stuporous fact filtered into my mind.

"All the flock, all the flock," answered Uncle Peter, with what seemed under the circumstances a heartless chuckle. "They make one have little dabs of property about as big as a handful of chicken feed, and as they have each one given it all to James to manage they expect an income in return."

## To Overcome Eczema

Never mind how often you have tried and failed, you can stop burning, itching eczema quickly by applying a little ointment furnished by my druggist for free. Extra large bottles, \$1.00. Healing begins the moment ointment is applied. In a short time usually every trace of pimples, blotches, rash, eczema, tetter and similar skin diseases will be removed.

For clearing the skin and making it vigorously healthy, ointment is an essential. It is not greasy, sticky or watery and it does not stain. When others fail it is the one dependable treatment for all skin troubles.

Zemo, Cleveland.

They have an electric plant; but, as I have noted before, the lights therefrom show a strong trace of their place knot heredity and go out on all important occasions, whether of festivity or tragedy. Kerosene lamps have to be kept filled and cleaned if a baby or a revival or a lawn festival is expected.

They have a lovely, wide concrete pavement in front of six of the stores around the public square, but no two stretches of the improvement join each other, and it makes a shopping progression around the town somewhat dangerous on account of the sudden change of grade of the sidewalk about every sixty feet. Aunt Augusta wanted Uncle Peter to introduce a bill in the city council forcing all of the property owners on the square to put down the pavement in front of their houses at small payments per annum, the town assuming the contract at 6 per cent. Uncle Peter refused, because he said that he felt a smooth walk around the square would call out what he called "a dainty parade" every afternoon.

They have a water system that is supplied by so much mud from the river that it often happens that the town has to go unwatered for a week, while the pipes are cleaned out. There is a wonderful spring that could be used with a pump to supply the town, Aunt Augusta says.

The city council tied up the town

for a \$100,000 subscription to the railroad and failed to tie the shops down in the contract. They are to be built in Holler. A great many of the rich men have lost a lot of money thereby. Cousin James the most of all, and everybody is sitting up in bed blinking.

There are still worse things happening in the emotional realm of Glendale. Lee Greenfield has been in the state of going to ask Caroline Lelbert to marry him for fifteen years and has never done it. Caroline has been beautiful all her life, but she is getting so thin and faded at thirty that she is a tragedy. Lee goes to see her twice a week, and on Sunday afternoon takes her out in his new and rakish runabout that is as modern as his behavior is obsolete. Caroline knows no better and stands it with a sublime patience and lack of character. That is a situation I won't be able to keep my hands off of much longer.

Ned Hall's wife has seven children with the eldest one not twelve, and she looks fifty. Ned goes to all the dances at the Glendale hotel dining room and looks thirty. He dresses beautifully, and Ned and his wife like to dance with him. Just ordinary torture wouldn't do for him.

Polk Hayes wouldn't be allowed to run loose in London society. Salie Carruthers is a great big husky woman, with three children that she is responsible for having had. She and her family must consume tons of green groceries every month and a perfectly innocent man pays for them.

Mrs. Dodd, the carpenter and contractor's wife, is a Boston woman who came down here. Before I could write all about that Boston girl so that Jane could understand perfectly the situation Polk came around from the side street and seated himself on the railing of the porch so near the arm of my chair that I couldn't rock without inconveniencing him.

I am glad he found me in the mood I was in and I am glad to recollect the strong minded—let me near being the strong armed—contest in which we indulged.

"Excuse me for a woman that has a lot of spirit! She is so much sicker than I am," said Evellina, who was one of the gentle remarks with which he precipitated the riot. "I think it has been spunkily fascinating of you to come and live by yourself in this old barn. It keeps me awake nights just to think of you over here—alone. How long is the torture to go on?"

Jane, I tried, but if I had frankly and courageously shown Polk Hayes what was in my heart for him at that moment I couldn't have answered for the results.

From the time I was eighteen until I was twenty the name sort of assault and battery had been a constant to me from him. He had beaten me with his love. He didn't want me. He doesn't want any woman except so long as he is uncertain that he can get her. Just because I had been firm with him when even a child and denied him, he has been merciless. And now that I am a woman and armed for the combat, it will be to the death.

Shall I double and take refuge in a labyrinth of subtleties or turn and fight? So I hesitated today.

"It is lonely—but not quite torture to me with the family so close across the street," I answered him, and I went on whipping the lace on a piece of stuff I am making to discipline myself because I loathe a needle so.

"Please don't you worry over me, dear," she said in answer to his, and I tried the common citizenship look. I must have carried a little way, for he dashed—the first time I ever saw him do it—and his hand with the cigarette in it shook.

"Evellina, are you real or a—farce?" he asked after a few minutes of peace.

"I'm trying to be real, Polk," I answered, and this time I raised my eyes with perfect frankness. "If you could define a real woman, Polk, in what terms would you express her?" I asked him straight out from the shoulder.

"Hell fire and a halloo! Oh, what a beautiful," he answered me promptly.

I laughed. I thought it was best under the circumstances.

"I'll tell you, Evellina," he continued stanchly. "A man just can't generalize the creature. Apparently they are craving nothing so much as emotional excitement, and when you offer it to them they want to go to housekeeping with it. Love is a business with them and not an art."

"Would you like to try a genuine friendship with one, Polk?" I asked, and again struck from the shoulder—with my eyes.

"Help! Not if you mean yourself, beautiful," he answered promptly and with fervor. "I wouldn't trust myself with you one minute off guard—like that."

"You could safely."

"But I won't!"

"Will you try?"

"No!"

"Will you go over and sit in that chair while I tell you something calmly, quietly and seriously? It'll give you a new sensation, and maybe it will be good for you." I looked him straight in the face, and the battle of our eyes was something terrible. I had made up my mind to have it out with him then and there. There was nothing else to do. I would be frank and courageous and true to my vow and accept the consequences.

He slid along the railing of the porch and down into the chair in almost a daze of bewilderment.

"Polk," I began, concealing a gulp of terror, "love you more than I can possibly—"

"Say, Polk, I let the pup sit hung by her apron to the wheel of your car out in the road, and her head is dangerous klinder up! It might run away. Can you come and get her loose for me?"

## CHAPTER VI.

### Deeper Than Shoulders and Rebs.

HENRIETTA'S entrance under the old-fashioned canopy was a lesson to both Polk and me, for with two gasps that sounded as one we both raced across the porch, down the path and out to the road where Polk's runabout stood by the worn old stone post that had lathered the horses of the woos of many generations of the mounds of my house.

But prompt as our response to Henrietta's demand for rescue had been, Cousin James was there before us. He stood in the middle of the dusty road with the twisted mite in his arms, soothing her frightened sobs against his cheek with the dearest tenderness and patting Salie on the back with the same comforting.

"Oh, Henrietta, how could you nearly kill your little sister like this?" Salie sobbed. "Please say something positive to her, James!"

"Henrietta," began Cousin James with a suspicion of embarrassment at Polk's and my presence at the domestic scene. Polk choked a chuckle and I could have murdered him.

"Wait a minute," said Henrietta, in her most commanding voice. "Salie, didn't you ask me to take that pup from Aunt Dilie, 'cause of the phthisis and keep her quiet while the kit got a nap and didn't I ask you if it would be all right if I got her back home and let her run?"

"Yes, Henrietta, but you—"

"Ain't she whole all over and clean?"

"Yes, but—"

"Couldn't nobody do any better than that with one of them twins. I won't try. If I have to nurse her it has to be in my own way. And with her in the old barn she'll march up the walk to the house."

At this Polk shouted, and the rest of us laughed.

"Polk, please don't encourage Henrietta in the way she treats me and her little sisters," Salie begged between her laughs and her half-swallowed sobs. "I need my friends' help with my children, not to have them make it hard for me. Henrietta is devoted to you, and you could influence her so for the best. Please try to help me make a real woman out of her and not some sort of a terrible—terrible suffragette."

Salie is the most perfectly lovely woman I almost ever saw. She has great violet eyes with black lashes that beg you for a piece of your heart, and her hair is as sweet as a lily. I love her with all my heart, and I could influence her so for the best. Please try to help me make a real woman out of her and not some sort of a terrible—terrible suffragette."

## GENUINE ECZEMA REMEDY

Now Hereby "That Heals Eczema" A. A. Clarke has sold hundreds of jars of Holman, and although he offered to refund the purchase price to any dissatisfied purchaser, not one jar has been returned.

While this is surprising in itself, yet the most marvelous thing is the reports of chronic cases of eczema that have been cured by this simple skin food. People who have suffered with scales, scabs and even bleeding itching have found relief in Holman.

No matter where the eczema, pimples or other breaking out occurs, whether on the face, hands, legs, or body, the application of Holman should give quick relief, and even the worst or most chronic cases should be cured in a short time.

You can buy a liberal-sized jar today at the very low price of 25c, and with every package goes A. A. Clarke's guarantee to refund the money if it is not satisfactory.—Adv.

## ALL STACKS BLOWING.

Bethlehem Steel Company Booked Up on Pig Iron.

The Bethlehem Steel Company is operating all of its seven blast furnaces, five of which are producing steel-making iron for the company's own use and two are blowing on foundry grades which have been sold in the open market.

Full capacity has been sold for the bulk of this year, and consequently this department is out of the merchant market for the time being. All the open health steel furnaces are active.

## SMITHFIELD.

## SOISSON THEATRE

**"THE CHIMNEY SWEEPS OF THE VALLEY OF AOSTA."**—The last of the Picture Playhouse Company's pictures, "The Chimney Sweeps of the Valley of Aosta," will be shown at the Soisson Theatre today. It is a beautiful story of the triumph of love over class and religion in the trials of two lovers who are through many hardships, but who are finally reunited. The famous French actress, Daura D'Arville is featured in the production. "Her Three Mothers" is a three reel Lammie feature with Agnes Vernon in the leading role. "Brownie" Vernon is one of the best liked actresses on the west coast. She is not the headlined and bearded sort of girl who sings and dances a real old fashioned girl who is eminently fitted for domestic drama. The Nestor comedy, "When a Man's Fickle," is a farce that will tickle the fancy of anybody. Tomorrow the last episode of the famous serial, "The Diamond from the Sky," will be shown, with Little Pickford in the leading role. The following Thursday, October 25, will commence the first series of the Rufus Wallingford pictures.

## COLONIAL THEATRE

**"SEVEN SISTERS."**—Marguerite Clark, the adorable, scores another decided success in the Famous Players Film Company's feature film version of Daniel Frohman's famous New York Lyceum Theatre success, "Seven Sisters," adapted for the American stage by Edith Little Pierce, and the latest release on the Paramount program at the Colonial Theatre, Tuesday and Wednesday.

The play is based on the Hungarian system of marriage, where matrimonial conventions inexorably conspire to helplessness and sterility of a girl whose younger sister marries before her. Under the circumstances, therefore, seven daughters may be considered a very well deserved blessing.

## WINDSOR WIN THREE

Invincibles are badly beaten on Opperman-Wilson Alloys.

The Windsor took three straight from the Invincibles last evening on the Opperman-Wilson alloys. All three scores were won by a good Martin. McIlhenny had high score with 127. The score:

WINDSOR	INVINCIBLES

particularly when the middle one is such a beauty. She places her sister's romantic chances in further jeopardy by being expelled from the convent school. That is what the naughty Miel, portrayed by Marguerite Clark, does in the play. She escapes from the school and attends a masked ball, where she meets Count Karl Horkoy. On her return she is caught and dismissed and sent home.

## GLOBE THEATRE

**"THE CITY TIGRESS."**—Featuring Julia Swayne Gordon and Leo Delaney, ably supported by other star players, is a wonderful attraction today. The production is a Viagraph Broadway Star feature in three acts, and abounds in interest from the beginning to the end. Miss Gordon is a great favorite among the moving picture patrons, and "The City Tigress" is one of her latest successes. "The Devil Soul" a Latin drama in three acts, is a drama of unusual interest. Eleanor Devlin is in the leading role, assisted by other capable screen favorites. The program is one of the best presented at the popular theatre for some time. "The Drab Sisters," a Biograph drama, with Louise Vale, is tomorrow's feature.

## ARCADE THEATRE

**"CORA."**—This is the title of B. A. Rolfe's latest pictorial production recently released through the Metro Pictures Corporation and which will be seen at the New Arcade today.

The title role is acted by Emily Stevens, a niece of Mrs. Pike, who has played with her aunt for a period of eight years. Miss Stevens shows on the screen her temperamental inheritance and is seen in a variety of scenes and situations which exploit her as an emotional and

dramatic actress of power. The screen play is an intensely interesting elaboration of the play of the same name by Fred De Gresac, Miss Stevens was last seen as star of the stage play, "To-Day."

"Cora" is a five-part drama founded on the play of the same name made by B. A. Rolfe. This being a "name" play, the title, therefore, gives no indication of the story, which, however, tells of the trials and tribulations of a young girl reduced to poverty, who rises above them through sheer force of character and talent, to a position of prominence in the operatic world. Her progress is made not without much that appeals to the emotions and sentiments of picture fans, by reason of the exigencies of a life fought with insurmountable difficulties.
